

LUI BAR

Our story begins here, 236 metres above Melbourne's street in a building conceived and built by the Grollo family, visionary third-generation Italian immigrants. Arriving with little more than a dream for a better life Luigi Grollo and his family devoted themselves to building a better city in the process, one driveway at a time.

The same dream has inspired many new Melbournians to bring to our city their culture, food, drink, and hospitality. Lui Bar takes inspiration from the history of those who have combined their passion and determination with local visions, and over the past century and a half, have shaped a drinking culture that is one of the best in the world.

So, here's to the people who have made Melbourne and to the influences, flavours, and stories that unfold over the bar.
